# WisPQC's New QI Learning Community

Do the words "quality improvement" perk up your ears?

Are you looking to connect with colleagues who speak the language of quality improvement?

Have you ever wished for a group to bounce measure definitions, AIM statements, or data interpretation questions off of?

If so, the WisPQC QI Learning Community is for YOU!

This group will meet virtually on the following dates:

- 11:00 am - 12:00 pm CT on Wednesday, May 11, 2022
- 12:00 pm - 1:00 pm CT on Thursday, July 14, 2022
- 1:00 pm - 2:00 pm CT on Wednesday, October 26, 2022

Register your interest and receive more information about the new QI Learning Community [here!](#)

# Initiative Updates

## Human Milk Feeding

- Thank you to all who participated in *Human Milk Feeding in Wisconsin: Mapping the Future* on November 16. Information from the meeting and follow-up survey are being used to shape the initiative.
- A follow-up meeting is scheduled for April 5, 2022, to share overall goals, measures, and change package elements for the initiative.
- For more information email us at [wispqc@perinatalweb.org](mailto:wispqc@perinatalweb.org).

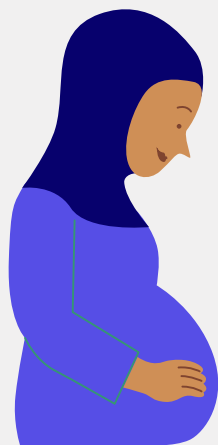

## NAS/NOWS:

- The NAS/NOWS initiative will conclude in March of 2022.
- Within our NAS/NOWS initiative:
  - 88% of infants with NAS/NOWS are managed using a comprehensive care algorithm. (LifeQI Aggregate chart CenterLine)
  - 50% of infants with NAS/NOWS receive any of their own mother's milk within 24 hours prior to discharge.

## Severe Maternal Hypertension - AIM Patient Safety Bundle

- The Severe Maternal Hypertension initiative started in October 2021.
- 44 Wisconsin hospitals are participating in this initiative.
- Collaborative goals:
  - By December 31, 2022, decrease severe maternal morbidity among pregnant/postpartum women who experience severe hypertension among those hospitals participating in the collaborative.
  - By December 31, 2022, increase the percent of birthing patients with acute-onset severe hypertension that persists for 15 minutes or more, including those with preeclampsia, gestational or chronic, who are treated within one hour of first elevated blood pressure reading.
  - By December 31, 2022, decrease disparity gap among pregnant/postpartum women with acute-onset severe hypertension that persists for 15 minutes or more, including those with preeclampsia, gestational or chronic, who are treated within one hour of first elevated blood pressure reading.

SAVE THE DATE!

# Wisconsin Perinatal Conference

GROWING STRONGER, TOGETHER

SEPTEMBER 26-28, 2022 • GREEN BAY, WI

## Upcoming Events & Opportunities

### Wisconsin Perinatal Conference Poster Submissions

Would you like to present your work to a multi-disciplinary audience? We are accepting proposals for the Wisconsin Perinatal Conference! **Submit yours by April 1, 2022.**

### WisPQC Member Meeting (virtual)

12:00 pm - 1:00 pm CT, April 27, 2022

Join us to hear what WisPQC has been up to and connect with other WisPQC member organizations around the state.

[REGISTER HERE](#)

### Wisconsin Perinatal Conference, Green Bay, WI

Save the date for September 26-28, 2022

This conference will be the first-ever that the Wisconsin Association for Perinatal Care (WAPC) and WisPQC come together. Day one of this conference will be dedicated to what was formerly WisPQC Annual Summit content and the in-person WisPQC member meeting.

[LEARN MORE](#)

### Wisconsin CONNECT Women's Treatment ECHO

meets every second Thursday of the month  
from 11:00 am - 12:00 pm CT.
