

WPC Abstract Submission Information

[Click here to submit your abstract.](#)

If you have any questions, contact Kyle Mounts at mounts@wiperinatal.org.

Heading Table: This table presents the headings for the sections on the abstract. If you use these headings as you develop your abstract, it will be easier to enter the abstract into the form.

Case Study	Innovative Program/Project	Literature Review	Original Research	Other
Title	Title	Title	Title	Title
Background	Introduction/ Problem Statement	Background	Introduction/ Problem Statement	Background/ Introduction
Case Description	Purpose/ Objectives	Objectives	Hypothesis	Purpose/ Objectives
Intervention/ Course	Intervention/ Practice	Methods	Methods	Methods
Results	Results	Results	Results	Results
Conclusions	Conclusions	Conclusions	Conclusions	Conclusions

Case study and Literature Review

1. The total length of the abstract, including all sections, must be no longer than 350 words in length.
2. Draft your abstract in a separate document using the headings above.
3. Cut and paste the abstract sections in the spaces provided on the form.
4. **You must complete the submission process in one sitting; you will not be able to reenter the submission form once you submit it. If you are unable to complete the form, you may resubmit using the same link.**
5. The author(s) must include the principal individual(s) who designed and implemented the project.
6. Methodology must be appropriate to answer questions or address the problem stated.
7. Results should support conclusions.
8. Subject of the poster must be current and applicable to perinatal care.

Innovative Program/Project

1. The total length of the abstract, including all sections, must be no longer than 350 words in length.
2. Draft your abstract in a separate document using the headings above.
3. Cut and paste the abstract sections in the spaces provided on the form.
4. **You must complete the submission process in one sitting; you will not be able to reenter the submission form once you submit it. If you are unable to complete the form, you may resubmit using the same link.**
5. The author(s) must include the principal individual(s) who designed and implemented the project.
6. **Innovative programs/projects must be implemented and preliminary results must be available at the time the poster is presented. Notes: a) your abstract should state what preliminary results the finished poster will show; and b) preliminary results can include lessons learned during the implementation process, acceptance of the program/project, etc.**
7. Methodology must be appropriate to answer questions or address the problem stated.

8. Results should support conclusions.
9. Subject of the poster must be current and applicable to perinatal care.

Original Research

1. The total length of the abstract, including all sections, must be no longer than 350 words in length.
2. Draft your abstract in a separate document using the headings above.
3. Cut and paste the abstract sections in the spaces provided on the form.
4. **You must complete the submission process in one sitting; you will not be able to reenter the submission form once you submit it. If you are unable to complete the form, you may resubmit using the same link.**
5. The author(s) must include the principal individual(s) who designed and implemented the project.
6. **Original research must be completed and results must be included in the submitted abstract.**
7. Methodology must be appropriate to answer questions or address the problem stated.
8. Results should support conclusions.
9. Subject of the poster must be current and applicable to perinatal care.

Other (this is a new category for the Wisconsin Perinatal Conference and should only be used if the work does not fit in any other category).

1. The total length of the abstract, including all sections, must be no longer than 350 words in length.
2. Draft your abstract in a separate document using the headings listed below.
3. This option requires identification of a category that best describes the abstract.
4. Cut and paste the abstract sections in the spaces provided on the form.
5. **You must complete the submission process in one sitting; you will not be able to reenter the submission form once you submit it. If you are unable to complete the form, you may resubmit using the same link.**
6. The author(s) must include the principal individual(s) who designed and implemented the project.
7. Methodology must be appropriate to answer questions or address the problem stated.
8. Results should support conclusions.
9. Subject of the poster must be current and applicable to perinatal care.
